

REMOTE LEARNING GUIDE FOR STUDENTS AND PARENTS

WHY DO I NEED THIS INFORMATION?

The wellbeing of our students is our number one priority at Greater Shepparton Secondary College. While we are committed to ensuring the health and safety of our school community, we are also dedicated to ensuring that our students' education is not negatively impacted by school closure. Learning from home is not intended to be the same as learning at school. Students are not expected to be at a computer for six hours a day, rather learning should be broken up into manageable chunks during the day with time away from the screen built in.

This information sheet is designed to assist parents and carers to support the learning of their children while at home.
