Statements from Candidate – NATHAN HANNIS

I am applying to be a part of the GSSC school council to be more involved in, and contribute to the school community.

I have previous experience on school councils having served as a councillor on my children's primary school council for 9 years; taking on the role of treasurer for most of that time.

I strongly believe that being an active and engaged parent demonstrates to my children the value of education.

I am passionate about education and have taught at a secondary level for the past 20 years in the Goulburn Valley.

My interests include my subject areas of Maths and Science, spending time with my family and my new hobby of running.
