

Thursday, 1st December 2022

Dear 2023 Year 7 Students and parents,

As you would be aware the state-wide orientation/transition day for 2023 Year 7 students is on Tuesday the 13th of December. This letter is to inform you of transport arrangements so that you can get to your chosen school on the 13th.

Many of you will be walking, riding or being driven to school. For others none of these options is possible and you will need to take a bus to get to your chosen school.

School Bus Program (Country students)

2023 Year 7 students who have older siblings/relatives/friends who reside at the same address and are already attending Secondary school will access the service currently used by their older sibling/relative/friend. If you have a neighbour attending the same secondary school, you can access the service that they currently use.

If you are not sure of the service that you should access, give your name and address to your Primary School Principal who will contact the Bus Coordinator Therese Cossens.

Students are encouraged to wear their current school uniform. This will allow the drivers of the buses to identify students who may be anxious and assist them with their journey.

STS - Shepparton Transit Services (Public Transport)

All public transport routes can be accessed on the GSSC website – operations tab

The link is [2022 Bus Travel Information - Greater Shepparton Secondary College \(gssc.vic.edu.au\)](https://gssc.vic.edu.au/2022-Bus-Travel-Information)

Maps detailing the location of stops and the timetable for each route can be accessed on the page. Students are encouraged to wear their current school uniform. This will allow the drivers of the buses to identify students who may be anxious and assist them with their journey.

NB There is no charge for any of the services on Orientation/Transition on the 13th of December
